

PCP System Design and Performance Optimization Courses

Including instruction on:

PC-PUMP® *"The Industry Standard"*

Four-day Comprehensive Course

C-FER is pleased to offer its leading edge course on progressing cavity pumping (PCP) systems. The course will provide a comprehensive technical review of PCP system design and their application to a wide range of well conditions but with emphasis on coalbed dewatering applications. The course also includes a one-day session to introduce and demonstrate the use of our PC-PUMP Software with hands-on computer training.

Date	Course	Location	Early Bird Cost	Regular Cost
March 12 -15, 2012	Four-day Comprehensive Course	Brisbane, Australia	CAD\$3,450 (before Feb. 24/12)	CAD\$3,750 (after Feb. 24/12)
